### LEADERSHIP

We aim to become authentic leaders and changemakers, improving the world for the better! Storytelling aids us in this quest and presents an exciting challenge. Stories have always captivated humans. Did you know that all major brands today rely on storytelling? Moreover, we want to explore our limits and climb mountains. Great leaders seem to effortlessly overcome boundaries.

### ENTREPRENEURSHIP

There's hardly anything more creative than entrepreneurship. We aim to ignite this spark in you and instill the entrepreneurial gene. In the Shark Tank competition, you and your team can demonstrate your creativity and business acumen. In the grand finale, you'll have 5 minutes to present your dream on stage.

### TEAM BUILDING

This is about finding solutions together and realizing that we are stronger together. Fifteen heads are better than one. In the future, humanity must find solutions collectively.

Practical applications include the talent show and the Unconference, where you can reflect on your own issues with others.
